<b>Infrastructure</b>								
20.106	Federal Aviation Administration (FAA)	Airport Improvement Grants (AIP)	\$6,868,271	\$-	Discretionary grants to airports for airport improvement, with priority given to those projects that can be completed within two years.	\$4,785,226	Funds awarded for rehabilitation of Ellington Airport Taxiways A , D, and F.	Complete
11.557	Department of Commerce National Telecommunications and Information Administration (NTIA)	Broadband Technology Opportunities Program - Round II	\$3,793,089	\$2,197,181	ARRA authorized \$7.2 billion to expand access to broadband services, with \$4.7 billion specifically allocated to the Department of Commerce's National Telecommunications and Information Administration (NTIA) to support three BTOP project categories: comprehensive community infrastructure, public computer centers, and sustainable broadband adoption. This funding was made available in two rounds of competitive applications.	\$3,793,089	Funding for the City's Digital Inclusion Initiative Wireless Empowered Community Access Network (WeCAN) as part of an application submitted by the Texas State Library & Archives Commission. The State Library was awarded \$7,955,941 to fund the Technology Expertise, Access, and Learning for all Texans (TEAL) project in the public computer center category (PCC). The City's portion of the project will be implemented by Houston Public Libraries (HPL), the department currently managing WeCAN. This funding will be used to improve broadband Internet and computer access at 60 existing computer centers across 17 high-need neighborhoods.	Not started
20.205	Department of Transportation (DOT) Federal Highway Administration (FHWA) Texas Department of Transportation (TXDOT)	Federal-Aid Highway Program, Federal Lands Highway Program	\$-	\$2,693,680	ARRA allocation to TxDOT for complete restoration activity. Restoration projects are defined as work performed to restore pavement structure, riding quality, or other necessary components.	\$12,603,295	This project is part of the City of Houston's City Wide Overlay Program and is required to improve and maintain a safe road surface and accessibility. Funds must be obligated by March 1, 2010. All projects have been bid.	Not started
20.205	Department of Transportation (DOT) Federal Highway Administration (FHWA) Texas Department of Transportation (TXDOT)	Surface Transportation Projects: TXDOT Local Transportation Project Advance Funding Agreement	\$5,000,000	\$1,100,000	ARRA allocation to TxDOT for complete restoration activity. Restoration projects are defined as work performed to restore pavement structure, riding quality, or other necessary components.	\$5,000,000	Funding for equipment for the Wi-Max 4G wireless broadband network that supports Houston's city-wide transportation communications system. This network will enable the City to remotely control and maintain more than 2500 signalized traffic intersections and 1500 school zone flashers without a field technician physically visiting each device. This system will provide remote diagnostics and automatic notification to increase staff efficiency and decrease response time to mobilization issues. In addition, the excess network capacity in the WiMAX network will be extended to reduce costs and improve customer service by remotely reading the City's 500,000 water meters every hour, efficiently connecting the over 400 remote facilities, and serving the public good by extending excess bandwidth through public libraries to provide free internet service in underserved neighborhoods.	Complete
